

Valve & Injector Cleaner

LUBPLUS Valve and Injector Cleaner improves engine performance and extends engine life significantly by cleaning the valves, injector nozzles and the inlet area without dismantling. Simply add to the fuel tank before filling up to remove any contamination in the petrol injection system. Recommended for all petrol engines.

APPLICATION: Should be used every 6 months or as needed. Add directly to the fuel tank before filling up. Product works during operation. Suitable for 40 L up to 60 L of petrol. For larger tank volumes add 0.5 % of the fuel volume.

Properties

- + Excellent cleaning properties
- + Provides powerful and stable combustion
- + Recommended for all petrol engines
- + Eliminates deposits and contamination for improved engine performance and efficiency especially in case of cold start issues and/or bad exhaust valves

Specifications

Reaction Time: Works during operation

Consumption: 300 ml for up to 40 - 60 L gasoline / 50 ml for 10 L

Application: All gasoline engines

Interval: Every 6 months or before every refueling

Table of properties

Property	Test Method	Unit	Value
Density	DIN 12185	g/cm ³	0.79
Kinematic Viscosity @ 40°C	DIN EN ISO 3140	mm ² /s	1.01
Flash Point °C	ISO 3679	°C	42
Physical State			liquid
Color			Gelb / light yellow
